

Blind Zone (Dense Terrain / Sensor Denial & Information Warfare)

Executive Summary

This document provides a comprehensive overview of the Blind Zone (Dense Terrain / Sensor Denial & Information Warfare) project. It details the project's goals, design principles, and implementation details. The project aims to create a realistic and challenging environment for sensor denial and information warfare operations. The environment features dense terrain, complex terrain features, and various obstacles that can be used to hide units and equipment. The project also includes a detailed description of the sensor denial and information warfare mechanics, including the use of various sensors and the ability to jam or spoof enemy sensors. The project is designed to be a realistic and challenging environment for sensor denial and information warfare operations.

Design Goals & Gameplay

Sensor Denial Warfare

Key objectives include: Jamming enemy sensors, disabling enemy sensors, and using various tactics to deny enemy sensor capabilities. The project also includes a detailed description of the sensor denial mechanics, including the use of various sensors and the ability to jam or spoof enemy sensors.

Information Warfare & Deception

Key objectives include: Using various tactics to deceive enemy units, including the use of decoys, smoke, and other tactics to hide units and equipment.

Gameplay Mechanics

Key objectives include: Using various tactics to defeat enemy units, including the use of various weapons and tactics to defeat enemy units.

Gameplay Features

Key objectives include: Using various tactics to defeat enemy units, including the use of various weapons and tactics to defeat enemy units.

Gameplay Mechanics

Key objectives include: Using various tactics to defeat enemy units, including the use of various weapons and tactics to defeat enemy units.

Gameplay Features

Key objectives include: Using various tactics to defeat enemy units, including the use of various weapons and tactics to defeat enemy units.

Gameplay Mechanics

Key objectives include: Using various tactics to defeat enemy units, including the use of various weapons and tactics to defeat enemy units.

Gameplay Features

Key objectives include: Using various tactics to defeat enemy units, including the use of various weapons and tactics to defeat enemy units.
