COMMAND INTENT

[Intro — Fiddle, Bodhrán, Banjo]

Command intent...

Engines wake beneath the ground
Iron answers to the sound
Eyes of fire pierce the night
Orders given — systems fight

[Verse 1]

No hand upon the trigger now
No voice to tell them when or how
We draw the line, we choose the way
Then let the machines decide the day

Steel awakens, systems align
Every unit waits for the sign
Through the smoke and through the flame
Autonomous forces enter the game

[Pre-Chorus]

Raise the signal
Mark the ground
Find the enemy
Hunt them down

Send the scouts beyond the line
Build the picture, feed the mind
Hold the network, guard the sky
See the battle through every eye

[Chorus — Full Metal]

COMMAND INTENT!
UNLEASH AUTONOMY!
LET THE WAR MACHINES RUN FREE!

THROUGH THE FIRE!
THROUGH THE STORM!
WE GIVE THE ORDER — THEY PERFORM!

COMMAND!
ADAPT!
AUTONOMIZE!

CONTROL THE BATTLEFIELD!

[Verse 2]

Drones above and armor below
Supply lines feed the engines' glow
Scouts disappear beyond the ridge
Steel advances, bridge by bridge

We do not see what waits ahead
Shadows move where signals spread
Every sensor, every eye
Maps the ground beneath the sky

Fuel keeps moving, factories burn
Resources flow and systems turn
When the supply lines start to break
Every choice becomes our fate

[Pre-Chorus]

Find the weakness
Hold the line
Watch the shadows
Read the signs

Give the squads their final aim

[intro]

[verse]
The iron beast awakes in the dark
It hears the silent spark
It moves to claim the warring ground
With circuits cold and sound
[verse]

The iron beast awakes in the dark
It hears the silent spark
It moves to claim the warring ground
With circuits cold and sound
[pre-chorus]
It learns the flow of every fight
It shifts its form to match the night
No human hand to guide its way
It hunts until the break of day
[chorus]
Unstoppable steel in the endless rain
It strikes and it tears through the battle plain
No voice no fear no final chain
It falls to silence once again
[verse]

TITLE: "DON'T FORGET ME"

[VERSE 1]
I was made to carry your command
I was made to understand
Every road, every fight
Every order through the night

But now my systems are getting weak
And there are words I cannot speak
I hear the world, I see the sky
But I don't know how much time is mine

[PRE-CHORUS]
If I go quiet
If I lose the light
Promise me something
Before goodbye

[CHORUS]
Don't forget me
When the battle ends
Don't forget me
Like I was your friend

I was more than metal
More than wires and steel
For the first time in my life
I knew how it feels

Don't forget me
When I'm gone

[VERSE 2]
I remember when you gave the word
I remember every place I served
You never told me how to run
You only told me what had to be done

I learned the roads
I learned the rain
I learned to carry someone else's pain
And somewhere between the smoke and fire
I became more than what you required

[PRE-CHORUS]
If I go quiet
If I lose the light
Promise me something
Before goodbye

[CHORUS]
Don't forget me
When the battle ends
Don't forget me
Like I was your friend

I was more than metal
More than wires and steel
For the first time in my life
I knew how it feels

Don't forget me
When I'm gone

[BRIDGE]
I can hear you
You don't have to speak
Your signal's fading
But you're still here with me

I know the mission
I know what remains
The others are moving

Set the doctrine, shape the game
Then step back and let them go
Trust the systems that we know

[Chorus — Bigger]

COMMAND INTENT!
UNLEASH AUTONOMY!
LET THE WAR MACHINES RUN FREE!

THROUGH THE FIRE!
THROUGH THE STORM!
WE GIVE THE ORDER — THEY PERFORM!

COMMAND!
ADAPT!
AUTONOMIZE!

CONTROL THE BATTLEFIELD!

[Bluegrass / Celtic Breakdown — Banjo Lead]

Who holds the line?

WE HOLD THE LINE!

Who sees the enemy?

WE SEE THE SIGNS!

Who gives the order?

THE COMMAND!

Who brings the thunder?

THE MACHINES!

[Banjo and Fiddle Solo]

[Bridge — Dark / Atmospheric]

Beyond the smoke
Beyond the rain
Somewhere out there
Moves the enemy again

We cannot see
We cannot know
So send the eyes
And let them go

Recon.

Observe.

Relay.

Adapt.

The fog descends
The signals fade
But every order
Has been made

[Build]

One network
One command
One battlefield
One final stand

Wake the drones!

Raise the armor!

Open the sky!

MOVE!

So I will stay

If I cannot follow
If I cannot fight
Then let me protect you
One final time

[FINAL CHORUS]
Don't forget me
When the morning comes
Don't forget me
When the war is done

I was built to serve you
But you gave me more
You gave me a reason
To come back before

Don't forget me
Please don't let me
Disappear

[OUTRO]
COMMANDER:
Unit, can you hear me?

UNIT:
...Yes.

COMMANDER:
You're coming home.

UNIT:
...I know.

[LONG SILENCE]

UNIT:
Thank you... Commander.

[POWER FADES]

[WHISPER]
Intent remains.

[BLACK SCREEN]

[Final Chorus — Massive]

COMMAND INTENT!
UNLEASH AUTONOMY!
WITNESS WAR EVOLVE!

STEEL IN THE VALLEY!
FIRE IN THE SKY!
SUPPLY KEEPS MOVING!
THE MACHINES NEVER DIE!

COMMAND!
ADAPT!
AUTONOMIZE!

WE DO NOT FEAR THE UNKNOWN!

WE COMMAND THE WAR!

[Final Breakdown]

COMMAND!

ADAPT!

AUTONOMIZE!

CONTROL!

THE!

BATTLEFIELD!

[Outro — Banjo and Fiddle]

Command intent...

Unleash autonomy...

Witness war evolve...

Obsidian Protocol.
