

BLACK SITE — MASTER FACILITY LAYOUT

PURPOSE:
Hidden autonomous-warfare research and command facility.
Built underground.
Designed to run a full-scale war without outside support.

OVERALL STRUCTURE

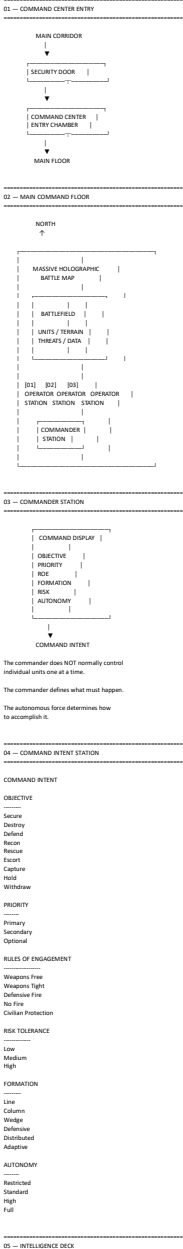

OBSEDIAN FACILITY MASTER FACILITY LAYOUT

OBSEDIAN FACILITY COMMAND CENTER — MASTER LAYOUT

PURPOSE
The Command Center is the brain of the Obsidian Facility.
This is where the commander:

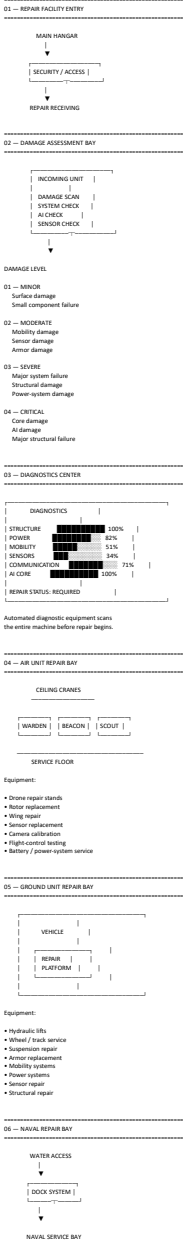

- Sees the battlefield
- Controls the fleet
- Creates Command Intent
- Sets objectives
- Sets priorities
- Defines Rules of Engagement
- Controls risk
- Watches intelligence
- Monitors autonomous decisions
- Replaces units
- Resizes unit status
- Takes emergency control when necessary

OBSEDIAN FACILITY REPAIR & MAINTENANCE COMPLEX

PURPOSE
The Repair Facility is where damaged autonomous units are inspected, repaired, tested, upgraded, and returned to operational status.
It is where autonomous units are:

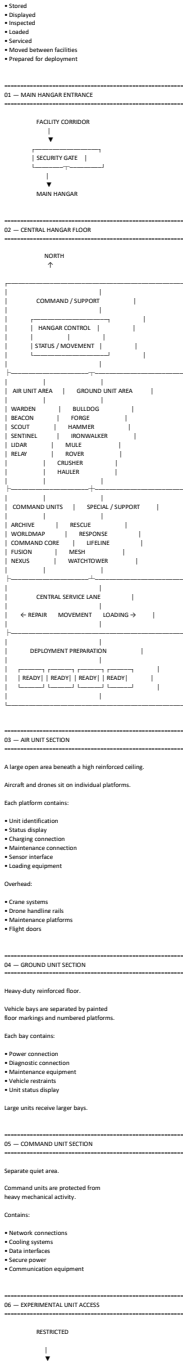

- Stored
- Displayed
- Inspected
- Loaded
- Serviced
- Moved between facilities
- Prepared for deployment

OBSEDIAN FACILITY MAIN HANGAR

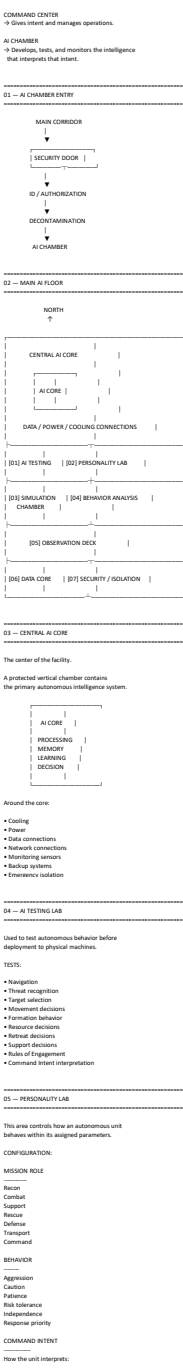

PURPOSE
The Main Hangar is the largest active machine area inside the Obsidian Facility.
It is where autonomous units are:

- Stored
- Displayed
- Inspected
- Loaded
- Serviced
- Moved between facilities
- Prepared for deployment

OBSEDIAN FACILITY AI CORE / PERSONALITY CHAMBER

PURPOSE
The AI Chamber is the facility's controlled environment for developing, testing, configuring, and monitoring the autonomous intelligence used by Obsidian units.
It is NOT the Command Center.
COMMAND CENTER
→ Does most and manages operations.
AI CHAMBER
→ Develops, tests, and monitors the intelligence that interprets that intent.

OBSEDIAN FACILITY MILITARY INTERIOR MASTER LAYOUT

DESIGN PURPOSE
The interior should feel like a real military command facility combined with a high-security industrial base.
It should NOT look like a normal office building.
