

Executive Summary

Envision a desecrated tropical locale transformed built for **weathered-olive combat, concealment, sensor degradation, and autonomous navigation through overgrown-olive terrain**. The environment features massive downpour, thick canopy cover, muddy trails, river crossings, waterfalls, cliffs, abandoned research huts, and overgrown ruins. The map emphasizes Obsidian Protocol's autonomous launch-optimized base, sensor-fusion under heavy rainfall, control-olive warfare, and ballistics under extreme humidity and visibility loss. In AR Realms (AR/VR), the map anchors at 4-6 m in visual distance, covering a 1000m in physical area representing "1 km" of tropical jungle terrain. Key features include monsoon-driven fog-of-war, concealment pockets, unstable mud routes, and sensor-degraded environments.

Weather-Driven Combat
Rainfall prioritizes combat during heavy monsoon rain. Visibility drops, mud slows movement, and waterlogged terrain reshapes cover and traversal.

Autonomy & Jungle Navigation
Autonomous units choose routes based on vegetation density, mud stability, canopy cover, and sensor clarity. Units avoid flooded ravines unless str

Logistics & Resources
Fuel caches, research huts, and river docks serve as resupply nodes. Convoys must navigate muddy trails and avoid ambush-prone canopy corridors.

Spatial Constraints (Nreal AR)

Playable Area & Scaling
10x10 m physical area = 1 km² jungle zone (1:100 scale). Designed for tabletop AR.

Layout Overview

Blue HD River Dock Camo — 10 ft. 150x150 m Boats, crates, etc.

1. *Вопросы методики преподавания математики в школе*. М.: Педагогическое общество России, 2000. 128 с.

Neutral Forward Outpost — (1500, 950) Drone resupply zone.

Monsoon Corridor
Severe visibility loss; ideal for stealth ambushes and sensor deception.

Jungle Bash

Long-range engagements broken by vegetation; rain reduces accuracy

Lightlines
Cliff Relay A provides long-range sensor coverage (~300 m). Rain and f

Neutral Forward Zone: Outpost at (500,950) for drone drops.

Terrain
Jungle canopy, cliffs, rivers, mud trails, research huts.

Buildings & Props

Audio
Rainfall, insects, distant machinery, river flow, radio chatter.

Account / Item	Count	Trig/Item	Total Tris
Isomath Tax	3	2004	6004

Roads/Pa	4	20k	120k
Progs	50	10k	500k
Total	—	—	78 888k

Unreal / Nreal Integration

Rendering
Forward renderer, stationary lights, baked GI, aggressive culling

Interaction
Phone pointer for pan/zoom: HSD as screen-space width:

Implementation Plan & Test

2. **Core Systems** — Month 2 NavMesh, simple autonomy behaviors, weather logic.

Testing Plan

Comms/Sensors
 Test relay destruction, fix of aux output, I/O checks under maximum conditions

QA Checklist
